

Right Click Solutions is Set to Challenge the 2019 Mount Kisco Recreation Merchant Scarecrow Contest Competition!

Come find me in the Town of Mt. Kisco I just might have acquired your credentials on the Dark Web – one of my favorite places to visit!

Join the fun as once again Right Click Solutions creates a spectacular, spine-chilling scarecrow for this year's contest! Our scarecrow this year is very different from the friendly Chip II, our scarecrow robot of last year. Be sure to see what we have come up with this year and look for an email later in the month to vote for Right Click Solutions Creeper scarecrow!
