

Live Streaming

Live and on-demand streaming allows you to connect to your current audience as well as simulcast to overflow and those unable to attend in person. Using any Internet-connected device, your target audience can attend meaningful live events, in a setting which they are familiar, presented by your knowledgeable and friendly staff.

Right Click Solutions has installed and maintained many live stream solutions, allowing automated content distribution for multi-platform delivery. We make sure you can focus on your event or message to a live audience by creating a streaming solution that is ideal for your organization.

If you are interested in learning more about streaming options for your organization, please call 914-242-3212 or email us at team@rcsllc.net and schedule a meeting.

For more information, call Right Click Solutions.
