

PRESENTS

2020 Tech Drive

Please help support our effort to donate to a local tutoring organization in need of collecting gently used laptops, desktops & monitors

JCY-Westchester Community Partners is looking for new or gently used laptops, desktops, monitors, keyboards, and mice for Yonkers students for its eTutoring program. In response to the coronavirus, this program matches eTutors to students to support their remote learning programs. Many of the students do not have the technology they need. If you have a new or gently used laptop or desktop to spare, please call or email team@rcsllc.net to arrange pickup or drop-off of the device.

Important Note: Right Click Solutions will be ensuring all data is wiped clean from donated hard drives, at no charge, prior to donating to a student in need.

Thank you for your support!
